

CBRS Deployment in Agriculture

Primary customer name

Swan Trails Farm

Vendor name

Moso Networks

Pilot or commercial deployment

Commercial deployment

Primary use cases

Enhanced coverage, POS capabilities

Deployment location:

Snohomish Valley,
Washington

Go-live date :

09/01/2025

Types of connected devices

- Moso Canopy 5G OD1
- MiFi devices
- Fixed Wireless devices

Key business benefits expected or achieved

Faster payment processing

Seamless staff mobility

100% transaction success

Customer Quote

"We're not going to be able to feed the world unless we can produce more food on less ground. 5G and connectivity will really help farmers get more out of their fields, more production with better quality."

Nate Krause, Co-owner, Swan Trails Farm
